A New Hope

Introduction

This year IMG is recruiting talented developers from second years who have a constant desire to learn and grow. We are looking for an eternal aptitude besides the skillset from the sophomore year.

Overview

Second years who desire to be a part of IMG need to showcase their past-projects (portfolio) and submit a piece of work that is to be completed during the winters.
For the winter project, you can either submit the Mission on Tatooine or can work on some other project (, with brownie points of course).

Remark: If you attempt a winter assignment other than Mission on Tatooine, keep in mind that you give your best in it. As we haven't chosen this for you, make sure that it gives a lasting impression on the evaluators and wins you an interview call.
You can submit your work here. Check out the form once to know about the various formats you can submit your Resume (portfolio) and winter assignment
If you have any query, drop a message on our discord server.
